PROJECTS

GroFresh - Full-Stack E-commerce Platform | *React, Node.js, Express, MongoDB*

- **Live:** gro-fresh-silk.vercel.app | **GitHub:** github.com/Prottoy123/GroFresh
- Engineered a full-stack grocery application, solving complex cart state management and implementing dynamic product filtering logic.
- Architected RESTful APIs using Node.js and Express to manage secure seller authentication and streamline seamless data flow via MongoDB.
- Integrated Cloudinary and Multer for optimized media delivery, significantly reducing server load and improving image rendering speed.

MegaBlogAPP - Modern Blogging Platform | *React.js, Tailwind, Redux Toolkit, Appwrite*

- **Live:** blog-app-ten-ruby.vercel.app | **GitHub:** github.com/Prottoy123/Blog_APP
- Developed a highly responsive single-page blogging interface utilizing React.js and Tailwind CSS for a modern user experience.
- Eliminated redundant API calls by 40% and streamlined data flow by implementing global state management using Redux Toolkit.
- Leveraged Appwrite (BaaS) to engineer secure user authentication, real-time database CRUD operations, and content management.

EDUCATION
